PREFACE

During June 2022 I had an idea to build a table that was made with board games in mind. The main goal was to incorporate a monitor, which enabled me to use the screen as a digital board of some sort.

My hopes were to mainly use the table for Dungeons and Dragons, which meant I also wanted to incorporate a built-in dice tower.

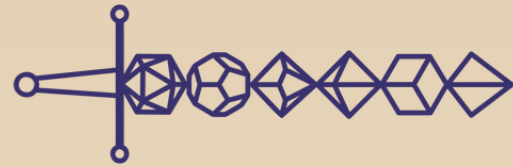

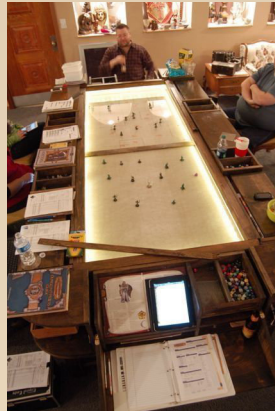

BRIEFING

Create a table with boardgames in mind. The table has to include a monitor and a dice tower, plus any other optional

| Size | Monitor | Input | Extras |
|-----------------------------|---------|---------------------------------|-------------------------|
| 1.5 meter x 1.6 meter | 27 inch | HDMI DisplayPort x2 USB-C | Dice Tower Cupholder |
